Home Systems Protection Plan brought to you by TrustedPlace™

If it plugs in, if it turns on, it's covered

Traditional homeowners insurance doesn't provide coverage for home equipment or system Breakdowns, we do! Your family could suddenly find themselves without heating, air conditioning, or the use of your kitchen—and facing a large and unexpected repair bill.

Even if you've invested in an extended warranty, you might find that it excludes many common household systems or require you to choose a contractor from their approved list. That could end up costing you thousands of dollars on top of the warranty cost.

There's a better way

Now you can fill those common coverage gaps with supplemental insurance that's simple, flexible, affordable and hassle-free: the Home Systems Protection Plan by TrustedPlace™

Experts say you should set aside up to 4% of your home value for annual repairs.*

Choose your own repair contractor

Hassle-free claims

No inspection or maintenance records needed

Up to a \$25,000 limit with low deductibles and no service call fees

Coverage extras like additional living expenses and food spoilage**

*U.S. News & World Report, "Look at Maintenance Costs Before Leaping Into Homeownership," <http://money.usnews.com/money/personal-finance/articles/2012/05/29/look-at-maintenance-costs-before-leaping-into-homeownership>

**Where permitted by law

We make it simple, so you can live your life

The last thing you need when something goes wrong in your home is a battle with your insurance company. With the Home Systems Protection Plan, you're in control so you can relax, confident that repairs are done on your terms.

Coverage is hassle-free. You choose your own contractors and work directly with them; TrustedPlace™ does not need to approve your choice. With no middleman and no waiting, you can get repairs done faster.

Then make your claim with TrustedPlace anytime, 24/7, 365 days a year. We make it easy: you can submit online, by phone, or by email.

That's it! You can get your home back to normal with minimum inconvenience.

Getting coverage is quick and easy

Simply visit us on the web to get started, or give us a call. You can chat with a representative, review coverage options, choose what best fits your needs and enroll in minutes.

Without coverage, repairs can be costly
